Casilla 114-D Santiago, Chile

Dear Dr. Larrondo,

Given my long-standing interest on the biocontrol agents of the genus *Trichoderma* and their light responses, I'm very interested in collaborating with your group in any project related to understanding the biology of these fungi. Therefore, I fully support you grant application entitled **Millennium Institute for Integrative Systems and Synthetic Biology (MISSB)**. Finally, be assured that we will be more than happy to share any expertise required for the development of the project, as well as receiving any visitor from your group in case you need to get better acquainted with handling *Trichoderma*.

Looking forward to a very productive collaboration.

Sincerely

Dr. Alfredo Herrera Estrella
